

Hello, my name is Stafford C. Nairn, Jr. I live at 1215 N.E. 128th Street, North Miami, Florida and I have been watching WHFT-TV, Channel 45 on a regular basis since 1985. Watching Channel 45 has been an experience that has changed my life because--because I was bound up on drugs and alcohol. I was a heroin and cocaine addict and my total life was being destroyed by the drugs. But my sister told me to watch channel 45 since I was on the drugs. I tried everything, but I came to a point in my life where I was searching for the answers to try, you know, to change my life. But by me watching channel 45 occasionally-- one day my father had got real upset with me and I thought he had totally gave up on me and I went in my bedroom and I turned the TV on and I kept it on channel 45. And when I turned the TV on I sat on the edge of the bed and I was crying because, like I said, I thought my father was going to give up on me and while I was sitting on the edge of the bed and with the TV on I heard this voice say "stop crying" and it says "Jesus loves you" and I turned around and I looked at the TV and I saw this evangelist, Dwight Thompson, on the TV and he was pointing his finger at me and I actually thought I had went crazy because everything I was thinking he was speaking to me from the TV screen and he said "you don't need those drugs," he said "Jesus loves you and he can deliver you from those drugs" and I walked over there to the TV and I sat down on the edge of the bed and I started listening to what he was saying and he said "you don't need to be a drug addict" and I then started looking down at my arm and I have tracks on my arm, needle marks, scars from using the drugs and I started looking down at my arm and he said "that's right, he

said "look at those tracks on your arm, you don't need that," said "Jesus can deliver you from those drugs." He said "if you want your life to change, come over to the TV." He said "put your hand on the TV and raise your right hand and say this prayer after me." And I started saying the prayer--what they call the sinner's prayer--what I said two years earlier to the church that I went to--that I go to now--and after I said that prayer it was like a warm heat came over my entire body and all the thoughts of whether I was gonna ever get off the drugs, I just got a total peace because it tells us in the word of God, in John 14:27 "Jesus said my peace I give unto you not like the world giveth" and ever since that day I have been totally free from drugs and I haven't had a desire for drugs, alcohol or anything since that time and I just want to thank channel 45 and I want to thank the Lord for channel 45 being here because it really has made a difference in my life.

What I have just described is true. I give this testimony under penalty of perjury of the laws of the state of Florida and I understand that a videotape of this testimony will be submitted to the Federal Communications Commission in connection with WHFT's renewal application.

Hello, my name is Marcus Ramirez. I live at 3660 Marberry Lane in Miramar, Florida. I have been watching channel 45 on a regular basis for about seven, seven to eight years but before that I watched it in my deprived state. It has been an experience that has changed my life in so many ways and I will describe to you some of the ways.

I--for a good portion of my life--I was addicted to heroin. It started out slow on marijuana and then it led up to heroin. And it got to the point where I used to live-- actually I would have an existence which was behind four walls in a very dark room, which was my room, no light coming in, and at the time, at this time I was so imprisoned and so blind and so in bondage to something that I knew no way out. I wanted a way out but I didn't know how and in my deprived state, in my blind state, in my absolutely state of bondage, I knew there was still a hope--I knew there was a chance for me somewhere but I didn't know how to get to that door. So I used to watch television and in my darkest times I remember turning on channel 45, flipping through, and I remember words coming through this station that were absolutely life changing even though at the time that I was hearing this I didn't quite understand what they meant, but I can tell you one thing right now, that that word that was coming forth, that word of hope, that word of love without a condition, telling me that in my filthy state, in my filthy rags that I could come to a God that is all forgiving, a God that is all loving, a God that was willing to pay a price for me that through that price that he paid I could come back into his entrance, I could come back into his presence, and I could be led and

instructed and empowered by God to be able to get out of where I was and to be where he wanted me to be. I can tell you right now that this television station has changed--and I know personally--has changed so many lives. I can only give testimony in fullness of mine that I can say with full assurance and totally convinced that there is people out there right now in a state where I was and I know that through this testimony that I am giving you, I can assure you that lives will be transformed as myself. I went from being a heroin addict, I went from there to prison and in prison is where God brought the increase. You see, the word was coming forth, the incorruptible seed. I didn't know and I didn't understand what was happening but I'd sit in front of this television and I'd hear the words that were coming forth and through this, this seed of God, the incorruptible seed was planted in my heart. Even though I didn't understand what was going on at the time, there was somebody that was planting a seed of hope, and planting a seed of love and forgiveness and when God planted that seed somebody else watered and God himself was the one who was able to bring the increase and that increase was allowing me to become the righteousness of God in Christ.

I thank you very much for this opportunity to tell you this is a needed station, this is something that the world needs in the very deprived state that we have.

What I have just described to you is true. I have given you the testimony under penalty of perjury of the laws of the state of Florida and I understand that this videotape of this testimony will

Hello, my name is Lori Perez. I live in Hallendale and I am a native of Miami Beach. I have been watching channel 45 for approximately two years now and I found that hearing the word of God brings faith. It has brought me a long way. I believe the holy spirit has used channel 45 to get the word to me. I was raised in a Jewish family. I was taught that you don't believe in Jesus Christ. I was self-centered, I thought I knew it all and that's the way I started my teen-age years. I ended up on Biscayne Boulevard as a prostitute. I was involved with drugs 24 hours a day. I was in bondage to Satan and didn't know the Lord. The Lord, through channel 45, has shown me--has shown me Jesus Christ who is a part of my life right now and he has used the Holy Spirit to make such miraculous changes in my life that--that I have to give my love and my heart to Jesus. There are so many wonderful programs on channel 45 that I can't even begin to name them and I believe that it is much more better for my heart to watch channel 45 than the other stations which glorify gangsters and guns and drugs. This new generation is coming up-- they have no hope--there is hope. There is hope in Jesus christ. If anyone had reason not to have any hope, it is me. I was medically diagnosed with HIV--full blown AIDS. The past year and a half I have been in and out of the hospitals, bed-ridden, sometimes I found my Bible too far away to open but I had the television remote and I was able to get channel 45 and get the word of God to give me hope. I stood on many of his promises that I heard on channel 45-- that I learned through many of the programs.

What I have just described is true. I give this testimony under penalty of perjury of the laws of the state of Florida and I understand that a videotape of this testimony will be submitted to the Federal Communications Commission in connection with WHFT's renewal application. May the Lord be with you. There is hope and there is a great need for people who can't get to church and have fellowship in channel 45. Thank you very much.

My name is Joseph Arthur Miller. I live at 735 N.E. 166th Street, Apt. 2, North Miami Beach, Florida 33162. I have been watching channel 45 from about the mid-70's, and on August 6, 1983 I was on two quarts of Jack Daniels, 260 codeine, .... I was snorting coke, taking quaaludes and smoking grass and a lady named Nancy Harman came on with her program on channel 45, and she said "if you're serious with the Lord you ask Jesus to come into your heart today." That morning I asked Jesus to come into my heart. That following afternoon I knelt to pray and I was filled with the Holy Spirit and the following morning I woke up and from that day forward I haven't had a drink, I haven't taken medication, I haven't had anything like that and God turned my life around through channel 45 and I appreciate channel 45 and I know that if the Holy Spirit can come into my life like that, like this, that we need this for our--for our city. Because if it can come into my life, God's no respecter of persons, what he's done for me he'll do for other people. And to me, this is for the community, this is for the world and this is important that we have channel 45 because they stand up for the Lord and there is only one thing that can change you. It's like God's word says: "Who the Son sets free is free indeed." These drug programs most of the time don't work because they fall off the wagon, and they don't, you know--they're always taking drugs or doing something. But God sets you free because God's word says it and I am a living example of it and it is due to channel 45 that I am the way that I am. If I had not been watching it that morning more than likely I would be dead today. When you're drinking two quarts of Jack Daniels a day you

know that God is real and that he changes lives and at any time I will stand up for channel 45 because I know they stand up for the Lord. And God tells you to go into all the earth and preach the Gospel and we don't have the means to do that. But through channel 45 we can do that and I just thank the Lord for channel 45. and I thank these men and women for working here and I thank Jan and Paul for God ministering through them to bring the truth through the Gospel to the world and I want to see channel 45 keep on going until Jesus comes because we need it.

Hello my name is Warren Schreier. I live at 233 N.E. 212th Terrace in North Miami Beach, Florida 33179. I have been watching WHFT-TV, channel 45, on a regular basis since May 22, 1982. Watching channel 45 has been an experience that has changed by life completely. In order to give an idea of the affect channel 45 has had on my life I would just like to briefly go into my past. I was born in New York of Jewish parents. I was raised there in a loving family and as I grew up I was kind of in a "Leave it to Beaver" kind of world. I had a good solid family and I did well in school and life was going along just about as I thought it should--up until around the age of twelve or 13 years old at which point I found out that my parents' marriage was on the rocks. This had a dramatic affect on my life. When they finally split up I was about 14 years old. At that time rebellion entered into my life and because it was the mid-60's at the time it took the form of drug use and abuse. So from about the time of the age of 14 to 15 I starting experimenting with marijuana and with pot, with pills and with all different kinds of drugs. In the beginning it was just fun, you know the kind of things that kids do. But after a little while it starting getting more serious, and within a few years it had affected my life so drastically that I dropped out of high school. Then my life just continued to proceed downwardly. Though I held a few jobs in different areas my life really became centered on drugs and drug abuse. Until finally my whole life was doing drugs until I was about 29 years old. At that time I was sitting in my living room, watching the cable television and I was flipping around on the dial at night, at about 11:00 and before I had ever

heard of channel 45. All of a sudden I saw Paul and Jan Crouch talking on the air. And I think--as most people out in the world envision them--I saw them and my first thought was look at those phony looking people, all they want is your money, so I turned it off immediately. I didn't want to have anything to do with religion. The next night the same thing happened. My wife and I were in the living room. My wife went to bed I lit up my marijuana. I started watching television and flipping the dials around. Then again, there they were, Paul and Jan Crouch, staring on the television set and saying you know, you gotta believe, you gotta believe, and I just rejected that. I said all these people want is your money they are a bunch of phonies, and I turned off the set. The third night the same thing happened I was smoking a joint and I was flipping the cable dials and on came the image of Paul and Jan Crouch. The same thought came into my mind. I said oh what phony looking people, all they want is your money. I don't want any part of this religion thing. But you know at that moment something happened. Today I say it was the Holy Spirit but at that time it was a strong thought in my mind said why don't you listen to what they say before you judge them and this stopped me and I started to listen to what they were saying on channel 45. And for the first time in my life I heard the Gospel of the Lord Jesus Christ. I heard and understood for the first time that Jesus not only was born on Christmas and died on Easter but that he was born, that he was the living son of God who was born and came to this earth. That he died on the cross for my sins and that he was

resurrected and that he is alive today and he could affect my life. Well at this point in my life I was totally hopeless. I didn't have any hope for the future. I had given up pretty much on my business. I had given up pretty much on my girlfriend. I had given up pretty much in every aspect of my life. But I was looking for Jesus to help me and I reached out to him. Channel 45 taught me about Jesus. They told me about what he could do for my life. They told me that he could be an important factor in my life and change my life so as I listened and watched my life became drastically changed. Through Channel 45 and the power of Jesus I was delivered from doing any drugs. I haven't touched drugs since '82. I have stopped smoking cigarettes. I stopped drinking. My business has prospered as I have been led by the Lord in this area of my life and my life has been changed totally for the better. Now I believe that channel 45 is great for all people to have the opportunity to watch and tune into.

What I have just described is true. I give this testimony under the penalty of perjury of the laws of the state of Florida and I understand that a videotape of this testimony will be submitted to the Federal Communications Commission in connection with WHFT's renewal application. My name is Suzanne Schreier and I live at 233 N.E. 212th Terrace. Channel 45--I have been watching channel 45 for 11 years now on a regular basis and it has been an experience that profoundly affected me; changed my life. I was 38 years old when my life turned about and I was drinking constantly all day long and slept two hours and got up to drink and smoke. Five packs a day I smoked and more than that I was hopeless I was at the bottom of society and a misfit. I could not adapt anymore. I was losing ground. I have a scar here on my wrist to prove that I had found that life wasn't worth living. Through a set of circumstances, I am French, and though I had money for a while and I was a model in New York and I travelled all around the earth I found such dissatisfaction in general with being aimless and going no where that I ended up being hopeless and trying to commit suicide, doing some drugs for fun, sex and I was flirting. In any case my life was just nothing to be very proud of or something that was going no where and I was conscience of it by the time I was 13. I knew that I was going no where, and that I was not satisfied with myself, I was reading a lot trying to find a name and a purpose to my life and by now was drinking constantly. Actually I couldn't even stop, I had tried a few times and I couldn't stop drinking. I wasn't productive in society. I was shoplifting just for fun. I didn't have any money so obviously we didn't pay any taxes. Actually I was a wasted citizen going--I could see myself becoming a bag lady in a few months. I was afraid of that. I could see it, I could taste it and I did not know how to change. Until--and I was living with a man--with a guy--and our business was going no

where. I was wasted until the day when channel 45 came into our life. Living with that person, he first changed and then through channel 45 and the influence of that man and of looking at the television my life completely turned about. I stopped drinking, stopped smoking. I had a goal and a hope in my life for the first time. There was a light, there was a foundation, there was moral value. Everything came back into place, and today my business is very good, actually I pay a lot of taxes, I am a productive member of the society. I am not a misfit anymore. And we see so many people today lost, airing about, costing the state money in hospitals. We don't go to the hospital. We are well, we are sound, we are healthy, we are happy. We give, we want to help. And this is not of our own doing. It's because constantly we feed ourselves on channel 45 and the teachings we find there. I can honestly say that the second most important factor and influence in my life has been channel 45. Looking at their shows, finding rest and peace there. I am always hearing the torments of the news and reading the newspaper or listening to the music, seeing the violence in the world. This is the only Heaven we have to rest. There is nothing else left today. And it should stay like that. We need that. I know many people just like me who found that their life has an equilibrium, has a purpose, through listening to the teachings of the television, channel 45. We need it and like I was saying my life today is put together thanks to channel 45. Also, I can say the most important factor was Jesus but without channel

45, I am, my heart, I can honestly say that I would not be where I am today, functioning normally and happy, and helping others doing so.

And so, what I have just described is true. I give this testimony under penalty of perjury of the laws of the state of Florida and I understand that a videotape of this testimony will be submitted to the Federal Communications Commission in connection with WHFT's renewal application. Thank you.

I have been watching channel 45 on a regular basis for the last eight years and the experience of watching channel 45 have completely changed my life. I am a new christian in Christ. I had two open heart surgeries. I was told by the doctor that I had cancer of the bladder and my doctor told me that I would have to go for an operation. I was watching 45, even so right now my TV's are on 45, even when I'm out of the house, both of them. Benny Hinn was on the TV that night. He told me to put my hands against the screen and pray and lift my hands up to Lord and I did, and I know that I was healed because when I went to the hospital last year on May 22 the doctors went up in my bladder and came back and they found nothing there. So thank you Lord Jesus I know that no one could do that but Jesus and I know that because I put my hands on the screen and I did believe and I do have all the faith in the world in channel 45 and if it would go off I really don't know what I would do because of all the people on channel 45 they have reached me very, very well. I have problems sometimes because with my health and things and if I want to get renewed in my faith and different things all I have to do is just sit down and watch it. It has really revived me in so many ways.

What I have just described is true and I give my testimony under penalty of perjury of the law of the State of Florida, and I understand that a videotape of this testimony will be submitted to the Federal Communications Commissioners in connection with WHFT. Hello, My name is Ron Albanese. I live at 1936 South Ocean Drive in Hallandale Beach, Florida. I have been watching WHFT, channel 45 on a regular basis actually since 1982 and watching channel 45 has been an experience that has changed my life dramatically. When I first came to know the Lord Jesus Christ the Lord had sent a woman in my life that she witnessed to me and she spoke about Jesus and she told me about the sins of homosexuality and that is what God has delivered me from. I didn't really understand but I knew that my heart was touched and I did a lot of listening to her and I went to church with her and spent a lot of time in this church. Unfortunately I didn't really understand what was being spoken in this church. This particular man that was in this church, the pastor, for some reason or another, he always seemed to harp on this one sin. I had just come to know the Lord. I didn't understand and I got very frightened and I just couldn't go back to this church anymore. So I began to stay home and people were telling me watch channel 45, put on channel 45 and I did that. I watched channel 45 for almost two years not being in a church fellowshiping with maybe five or six christians and it wasn't an overnight process for me. You know, some people, you know, get saved, get delivered and bang, it wasn't for me. It took a few years and channel 45 had a great impact on my life in those two years of watching and listening to the testimonies of people that spoke on this lifestyle and how God changed their life and how it wasn't a big deal and I remember at one point I said "Oh God, how can I--I can't do this, I can't do this," and after the two years of being alone and just watching channel 45 God led me to a church

and this particular church that I went to I knew the first time I went there that God wanted me and Tommy Nicholas, he was the Music of Ministry Arts, and he got up there and spoke on what God did in his life. He is married today, he has two children and how God had delivered him from the gay lifestyle. In this particular church they had support groups, people recovering from the gay lifestyle coming out of this type of lifestyle and I did a lot of fellowshiping through prayer and just meeting other brothers and other sisters. It is amazing what God did. I would never believe that I would be standing here today saying I am delivered, you know. I remember back when this woman spoke on these things and I said I can't do this--this is like--this is the way I was born, this is normal--I'm not doing anything wrong. But God started speaking to my heart and it was through this church, and through TBN and just believing in prayer I am just astonished at what God has done and now God called me back to New York City for five years and I remember when I was here in Miami and I was on my face praying and I said God just lead me to a church where I wouldn't have to go from church to church and it was LW, Living Word Christian Center and through those five years God has done so much in my life and now I am back here in Miami. I am here not even a month and a half and here I am giving my testimony to you on TBN so praise God and I give him all the Glory and all the honor and all the praises for what he is doing in my life. Thank you, thank you.

What I have just described is true. I give this testimony under the penalty of perjury of laws of the State of Florida, and
